verið svona vont veður í aðföng. Ég fór út fyrir átta í morgun. Bente í nætina, svo á fund á Landspítalanum. Í höfðinu í efra breyðinu og svo bent þaðan inn í Garðabæ. En á leðrinu þangað sá ég ekki neitt út úr bíróðunni og komst ekki upp á Viltisáveg en hélt mig á stöðbraut og komst svo á bíðastöð hjá Marel út að vinnu eni fyrir öðrum börum, sem íþróttir láta afar gáfulegt. Þar festist ég og hringsí í björgunarsveitna í Garðabæ og spurði hvort þeir gætu náð í mig. Nei, þeir voru í stömi verkefnum. Ég var svo hress að þetta skyldi fara frammi mér. Svo hringsí ég inn í Marel eftir klukkutíma sætu í bílinum og var þarín að huga um salernisferðir. Þá kom þessi elskulegi maður hjá fyrirtækinu og veiddi mig inn í bakstaflega menningu. Ég fékk teppi, tóku og kaffi til að ég gæti náð að vinna minni atvám. Éf þér þvoggja tíma hrakningar þringið þóttum lífru kirkjubáðan í mig og sagði að nú þjóðið elskast að fara við Guð. Þessur Guðna heinnar og þau njótnu komu á sínum svartu þjappblí og náðu í klerkin sem rétt náði að kveðja þetta elskulega fólk í einu besta fyrirtæki á landinu. Þegar ég kom

Hver þarf björgunarsveit þegar við erum...

Veðrið í gær lék margann grátt og lentu sumir illa í því. Séra Jóna Hr... Read more

Innova Checkout Installation Success in Ireland

Thursday, December 18, 2014

Seafood Cuisine, an Irish seafood processor, is very happy with its recent installation of Innova Checkout.

Innova Checkout – production control software for receiving, packing, and dispatch of fresh fish – enables Seafood Cuisine to comply fully with Irish traceability conformance, as stated by GS1, with the simplicity, clarity, and high-performance that address real-time challenges for the business.

With a preconfigured initial five-day deployment package, the Innova package including hardware was installed on the first day. The next three days involved dedicated hands-on training and testing for order input, label design, inventory control, and shipping procedures. The last day on site included systems start up and go live.

Seafood Cuisine was very happy with the delivery. Some additional staff training is required, but they are already very impressed with the new Innova capabilities at their disposal in

Progress Point Copenhagen

At the Progress Point Demonstration and Training Center, we will showcase Marel products to customers, run internal and external training workshops, and hold internal meetings.

The unique training and demo facilities at Progress Point bring experts together to explore how Marel's food processing equipment and integrated systems for the fish, meat and poultry industries are constantly extending the boundaries of food processing performance.

Progress Point enables food processors to experience the full potential of Marel's product range in a hands-on environment – just 5 minutes from Copenhagen Airport.

On this page you can find all the information you need about Marel's Progress Point. Click the links below to find information about events, demos, training, machines, booking forms and much more.

If you can't find the information you need, please contact progresspoint@marel.com

Meeting rooms in Gardabaer

Below is an overview of all bookable meeting rooms in Gardabaer.

Next to each room's name you will see a symbol showing the current booking status. A room can be booked by clicking these status indicators, regardless of the free/busy status.

- ✔ Means that the room is not currently booked
- 🟡 Means that the room is free, but is booked soon or vice versa
- ✖ Means that the room is currently booked

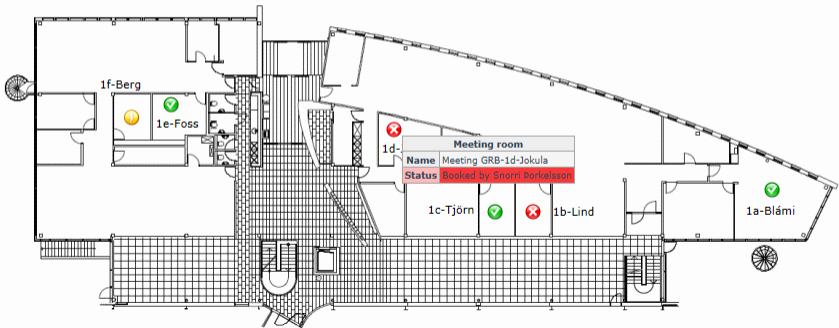

After a meeting room's symbol has been clicked, a message asking for confirmation on opening the required file will pop up. This message should be approved, and then a booking window from Microsoft Outlook will appear:

Do you want to open or save GRB-1d.oft (45.0 KB) from work.mymarel.com?

Open Save Cancel

Further information on each floor and individual meeting rooms can be found here on the left.

Title

Description

We are focused on meat products in the show and especially sausages!

- Our successful high capacity Peeler has been redesigned, according to market requirements. Key improvements lead a better performance over a longer time and lower COO. Pim Bos will tell us about the New Peeler 2800.

12:15

Network maintenance in Gardabaer January 10th.

In order to perform required maintenance on the Internet gateway in the Gardabaer office, the Internet based services hosted from there will be experiencing some outage during the period of Saturday, January 10th, between 09:00 and 11:00 CET. If trying to connect from outside the Marel corporate network the following services will be affected: Email, VPN in **Go**, **Sharepoint**, **Salesforce** (Single sign-on).
