Innovation

"...there is nothing more difficult to take in hand, more perilous to conduct, or more uncertain in its success, than to take the lead in the introduction of a new order of things. Because the innovator has for enemies all those who have done well under the old conditions, and lukewarm defenders in those who may do well under the new."

Niccolo Machiavelli c. 1505

Don't forget

If you walk three steps ahead you are leader

If you walk ten steps ahead you are a target

EFMI STC 2010 - just a month ahead

Sunday, 02 May 2010

The preparation of the medical informatics highlight in 2010 is making big progress.

even the volcano with the hard to speak name Eyjafjallajökull has not hindered to make an excellent programme and stay in the schedule.

STC2010 will take place at Háskólatorg - the University Center at the University of Iceland in central Reykjavik. It was opened in 2007 and has state of the art equipment and roomy and comfortable facilities.

Come and have a look. The Blue Lagoon (photo freefoto.com) invites you for a bath after the conference.
